However, note the following;

- ① A grantee cannot have the period of his/her scholarship extended as a Research Student (non-degree) course.
- ② A person who is accepted for a higher-level course without receiving approval for the request of the extension of the period of scholarship will not be able to have his/her period of scholarship extended. - ③ A Research Student (non-regular students) is not eligible to apply for an extension of the scholarship period if he/she cannot proceed to master's or doctoral course by the end of the term of the Research Student's scholarship. However, if he/she withdraw traveling costs (transportation from Japan), they are eligible to apply for an extension of the scholarship period. (A request to the Japanese university for issuance of the admissions letter made on September 1 or after is not permitted. Moreover, since August 31 is not the deadline for the issuance of the acceptance letter, a request to the university for the issuance may not be made.) Regarding the obtaining of the admissions letter, applicants may receive information from the Embassy of Japan in Thailand on contact addresses for the departments in charge of overseas universities at the various universities, the websites of universities and researchers, and so on.
- (2) When requesting the letter of admission from the university, please directly submit to the university the complete set of documents submitted to the Embassy of Japan (application, transcript of grades at own university, statement of applicant's major field and research plan, etc.; documents will stamped by the Embassy of Japan and returned) and the certificate verifying passage of the First Screening. Please submit any other necessary documents requested by the university.
- (3) Please always report the response from the universities to the Embassy of Japan in Thailand. Moreover, submit the final Placement Reference Form based on the responses from the universities to the Embassy of Japan in Thailand by the specified date.

Note: The result of the Japanese language examination will be used as reference data for Japanese-language education to be provided upon the applicant's arrival in Japan.

- * MEXT will conduct a final selection based on the results of the First Screening, and select as Japanese government scholarship grantees those applicants who have been accepted by a Japanese university. Therefore, applicants who have passed the First Screening at the Embassy of Japan are not automatically accepted as scholarship grantees.

11. SECOND SCREENING AND PLACEMENT AT UNIVERSITY

- (1) MEXT conducts the Second Screening based on the results of the First Screening conducted by the Embassy of Japan in Thailand, and selects the recipients of the MEXT Scholarship who have decided the university to which they wish to be placed. An application may be rejected if it arouses concern over proliferation of weapons of mass destruction (WMD) and related items, e.g. a case where it is highly possible that the applicant will receive the technology that is controlled pursuant to United Nations Security Council resolutions, or that any WMD-related technologies will be transferred to an applicant who belongs to (an) organization(s) on the End User List published by the Ministry of Economy, Trade and Industry of Japan (METI).
- (2) Candidates who successfully pass the Second Screening will, in principle, be placed at the university from which the candidate has received an admissions letter. MEXT will hold consultations with the three preferred universities listed in the applicant's Placement Reference Form. The grantee will be placed at the university that approves the admittance of the grantee as result of the consultation. However, should the candidate wish to enter either a public or a private university and not a national university, the candidate's preference specified in the Placement Preference Form may not be met due to restrictions on the Japanese government's budget preventing the covering of higher tuition and other costs at such universities. Any objection by the candidate to the decision on the university placement will not be accepted.
- (3) Candidates who receive an acceptance letter for admittance to the regular course at a graduate school will be directly placed in the said regular course without going through the period of the non-regular student (research student).
- (4) If a grantee is judged by the accepting university not to have adequate Japanese language proficiency to understand lectures or research guidance for experiments or practical training at the university, the grantee will be placed in a Japanese-language training course at an institution designated by the university of placement or MEXT for the first six-month period after the arrival in Japan. Upon completion of the Japanese language training, the grantee will enter the university of placement for advanced education. However, if the grantee's record of achievement in the language course is poor and the grantee is judged to be incapable of receiving advanced education, the scholarship payment will be stopped. (See 4. PERIOD OF SCHOLARSHIP.)
- (5) If a grantee is deemed by the accepting university to possess sufficient Japanese language proficiency to conduct his/her research, the grantee may directly enter the university of placement as a regular student or a non-regular student (research student, etc.)
- (6) Applicants will be notified by the Embassy of Japan of the final results of the Second Screening and the result of the university placement for successful candidates from November to February the following year. Moreover, any objections to the decision on the university of placement will not be accepted.

12. UNIVERSITY ADMISSION AND ACQUIRING OF DEGREES

- (1) If a grantee desires to move on to a regular course for a degree from a Research Student (non-degree) course, or to a doctoral course from a master's course or a professional graduate course, he/she needs to take an entrance examination administered by the relevant university and pass it. To continue receiving the MEXT scholarship after advancing to a higher level, the grantee must undergo another screening examination and be awarded an extension of the scholarship. (See 5. EXTENSION OF PERIOD OF SCHOLARSHIP.) A grantee cannot apply for an extension of the scholarship period while enrolled in a Research Student (non-degree) course.
- (2) If a grantee desires to advance to a regular course for a degree from a Research Student (non-degree) course, in principle, he/she must move on to the graduate school of the university at which he/she is studying as a Research Student. If proceeding to the graduate school is deemed to be inappropriate given the grantee's major field or ability, he/she may be allowed to transfer to another graduate school, provided that, he/she is admitted to it.

- (3) Although the entrance examinations to graduate school vary depending on the university, assessment of the applicant's foreign language competence, grasp of the specialized subject for study, plans for the graduation thesis, etc. are normally included.
- (4) Under the educational system of Japan, a typical master's degree course lasts for two years subsequent to graduation from a university (i.e. after completion of 16 years of school education), and a typical doctoral degree course lasts for three years after completion of a master's course. If a student has completed such a two-, or three-year course, obtained the necessary credits, and passed the final examination after submitting his/her graduation thesis, he/she will be granted the relevant degree.
- (5) In the fields of medicine, dentistry and veterinary science, and pharmacy which is based on a 6-year course at a department or faculty, most of the universities offer only 4-year doctoral courses. For admission to such a doctoral course an applicant is required to have completed 18 years of school education. If an applicant completed 16 years of school education, he/she is required to have engaged for two or more years in research activities at universities or research institutions subsequent to completion of the 16 years of education, and to be deemed by a graduate school in Japan as being academically equal to an applicant who completed 18 years of formal education.
- (6) Professional graduate schools were opened in 2003 with the aim of developing individuals with deep knowledge and outstanding ability in their field in order to support professions that require sophisticated expertise. The standard required duration of study is two years. In some fields of study, the duration is less than two years but more than one year. Upon completion of the course a master's degree (specialized occupation) is conferred. Among the professional graduate schools are "graduate schools of law." These schools require a standard duration of study of three years. Upon completion of the course a student will be granted the degree of "Doctor of Law (specialized occupation)."

13. NOTES

- (1) The recipient is advised to learn, before departing for Japan, the Japanese language and to acquire some information about Japanese weather, climate, customs, university education, and conditions in Japan, as well as about the difference between the Japanese legal system and that of his/her home country.
- (2) As the first installment of the scholarship payment will be made from one month to one and a half months after the grantee's arrival in Japan, the grantee should bring at last approximately US\$2,000 with him/her to Japan to cover immediate living expenses and other necessary expenses.
- (3) Recipient must enroll in National Health Insurance (NHI) upon arrival in Japan.
- (4) Accommodations:
 - ① Residence halls for international students provided by universities.
Some universities have residence halls for international students. The recipients enrolled at such universities may reside at these residence halls under certain conditions. However, due to the limited number of rooms, some of these facilities may be unavailable.
 - ② Private boarding houses or apartments:
Those who are unable to find accommodation in the aforementioned facilities may live in regular dormitories of the university or in private boarding houses/apartments. It is difficult for recipients with dependents to find appropriate housing in Japan. The recipient is requested to arrive in Japan alone first to secure housing before having his/her spouse and/or family come to Japan.
- (5) Information regarding the MEXT Scholarship recipient (name, gender, date of birth, nationality, accepting university/graduate school/undergraduate school, field of specialty, period of enrolment, career path after completion of scholarship, contact information [address, telephone number, e-mail address]) may be shared with other relevant government organizations for the purpose of utilization for international students programs implemented by the Japanese Government (support during period of study in Japan, follow-up survey, improvement of the international student system). Former recipients of MEXT Scholarships are asked to cooperate with any possible requests from the Japanese Government for the provision of relevant information after the recipient's graduation in Japan.
Information regarding MEXT Scholarship recipients (excluding date of birth and contact information) may be included in publicity materials prepared by the Japanese Government for promoting the acceptance of international students in Japan, particularly in order to introduce former MEXT Scholarship recipients who are playing active roles in countries around the world. These matters are included in the Pledge stipulating rules and regulations which MEXT Scholarship recipients must comply with and submit when they have been granted the Scholarship. Excluding exceptional circumstances, only those concurring with these conditions will be accepted as MEXT Scholarship recipients and will be granted the Scholarship.

(6) The English texts attached to the Application Guideline and the Application Form are for convenience only. The Japanese versions of the Application Guideline and the Application Form take precedence, and any English expressions do not change the Japanese content so if there are any questions about the content of the written text, those should be inquired at the Embassy of Japan in Thailand.

(7) More detailed information on this scholarship program is available at the Embassy of Japan in Thailand.

(8) In addition to the regulations stipulated in this guideline, those that are necessary to implement the Japanese Government Scholarship are determined by the Japanese government.
